

# RESOLUTION OF THE CITY COUNCIL

No. 714

Approved November 22, 1965

WHEREAS, Chapter 40 of the Public Laws of Rhode Island, 1965, authorizes the City of Providence to acquire by purchase or by the exercise of the power of eminent domain such land, water rights, easements or other property, or interest in property, public or private, in the Towns of Scituate and West Warwick and the City of Cranston as the City Council of the City of Providence determines necessary or desirable for the location, construction, maintenance, operation and repair of an aqueduct, aqueducts, tunnels, water pipes and their appurtenances and for ways and rights-of-way to such land from the nearest highways and for executing the work at, adjoining or near the portals and shafts of any tunnel construction designed as part or parts of such aqueduct, including the removing and disposing of surplus earth and materials, and

WHEREAS, the provisions of said act vested in the City Council of the City of Providence the determination of whether any such taking (by the exercise of the power of eminent domain) shall be in fee simple or a lesser estate or easement, perpetual in duration, and

WHEREAS, the Chief Engineer of the Water Supply Board, in accordance with the provisions of said act, has indicated that the acquisition of certain land, or other real property, or rights or easements therein, located in said towns and city, is necessary or advantageous for the purposes set forth in said act and has, with the approval of the Water Supply Board, recommended the acquisition thereof by the exercise of the power of eminent domain, and

WHEREAS, in such circumstances, by the provisions of said act the city council may authorize the acquisition thereof.

NOW, THEREFORE, BE IT RESOLVED, that pursuant to the provisions of Chapter 40 of the Public Laws of Rhode Island, 1965, the acquisition of the land, hereinafter described, in fee simple absolute, or in such lesser estate, right or easement, as hereinafter described, by purchase or by the exercise of the power of eminent domain, for the purposes set forth in said act, is necessary and in the public interest and condemnation proceedings for the acquisition thereof by the City of Providence are hereby authorized, and

**The City of Providence**  
STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

Page 2

BE IT FURTHER RESOLVED, that the mayor and the chairman of the Water Supply Board be, and they hereby are, authorized, within six (6) months of the adoption of this resolution, to sign and file in the Office of the Recorder of Deeds or the Town Clerk in the city or town wherein such land or interest, right or easement therein to be acquired is situated, a description of such land, a plat thereof and a statement that such land or interest, right or easement therein is taken pursuant to the provisions of said act and the nature of the title to be acquired, whether the same be in fee simple or a right or easement in said land to be taken, perpetual in duration, or whether the same shall be subject to any easements or rights-of-way or to any reserved or outstanding interests or rights, or subject to any encumbrances.

Description of land to be taken in fee simple and of land in which a lesser estate or easement is to be taken:

Attached hereto and made a part hereof and incorporated herein by reference is a plat plan, consisting of twenty sheets, entitled "City of Providence Water Supply Board Plat of Lands in the Town of Scituate, Town of West Warwick & City of Cranston to be condemned by the City of Providence for water supply purposes under Chapter 40 of the Public Laws of 1965, Prepared by the Water Supply Board September, 1965" locating the towns and city wherein land or an interest in land is to be taken and specifically designating said land by parcel numbers. A metes and bounds description of each of the aforesaid parcels of land designating same by parcel number, is also attached hereto and incorporated herein by reference.

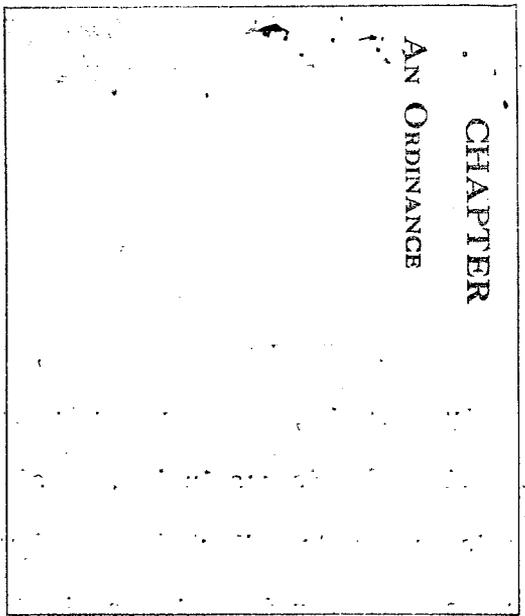

Description by number of parcels of land as shown on the aforesaid plat plan (incorporated herein by reference) to be taken in fee simple absolute:

Parcels numbered 1519, 1532, 1538, 1557, 1559, 1562, 1563, 1564, 1565, 1567, 1568, 1569, 1570, 1571, 1572, 1573, 1574, 1576, 1577, 1579, 1580, 1581, 1587, 1592, 1594, 1595, 1598, 1603, 1608, 1612, 1633, 1668, 1669, 1670, 1674, 1678, 1679, 1681 and 1682.

Description by number of parcels of land as shown on the aforesaid plat plan (incorporated herein by reference) in which the City of Providence takes an easement, perpetual in duration, granting it the right to locate, lay, build, operate, maintain, repair and renew an aqueduct or aqueducts, tunnels, water pipes and their appurtenances at such depths as the City of Providence may determine in, through and

No.

CHAPTER  
AN ORDINANCE

October 22, 1965

To the Honorable City Council  
of the City of Providence

Gentlemen:

Pursuant to Chapter 40 of the Public Laws of Rhode Island, 1965, the undersigned, Chief Engineer of the Water Supply Board of the City of Providence, hereby declare that it is my opinion that it is necessary and advantageous for the City of Providence, for the purposes set forth in said act, to acquire land or other real property in fee simple estate, or such lesser estates, including easements, perpetual in duration, as this Honorable Body may hereafter determine in the towns of Scituate and West Warwick and the city of Cranston and I do hereby recommend the acquisition thereof by the exercise of the power of eminent domain.

A description of the parcels of land which I believe it necessary for the City of Providence to acquire in fee simple estate, or otherwise, are identified and numbered on the plan attached hereto and made a part hereof by reference, prepared under the direction of the Water Supply Board by Charles A. Maguire & Associates, engineers, and consists of 20 sheets firmly bound. A metes and bounds description of each parcel is also attached hereto and made a part hereof by reference.

I recommend that the City of Providence acquire a fee simple title in parcels numbered 1519, 1532, 1538, 1557, 1559, 1562, 1563, 1564, 1565, 1567, 1568, 1569, 1570, 1571, 1572, 1573, 1574, 1576, 1577, 1579, 1580, 1581, 1587, 1592, 1594, 1595, 1598, 1603, 1608, 1612, 1633, 1668, 1669, 1670, 1674, 1678, 1679, 1681, 1682 as shown on said plan. I recommend that as to the remaining parcels of land shown, identified and numbered on said plan the City of Providence acquire an easement, perpetual in duration, granting to it the right to locate, lay, build, operate, maintain, repair and renew an aqueduct or aqueducts, tunnels, water pipes and their appurtenances at such depths as the City of Providence may determine in, through, under and along said land and real property, together with the right on the part of the City of Providence, its servants, agents, officers and employees, to enter at all reasonable times upon said land or real estate with such tools, trucks, motor vehicles and other appliances as may be necessary to build, rebuild, lay, operate, maintain, repair, inspect or renew said aqueduct or aqueducts, tunnels, water pipes and their appurtenances and specifically denying to the owners of said land

and real property the right at any time to build any structure or structures upon said land or real property, together with the right in the City of Providence to remove or have removed from said land or real property any structures located thereon or which may be located thereon at any time in the future.

I estimate the cost of said acquisition at \$170,000.00 and recommend that an appropriation be made for said purpose.

*Witness*  
*John T. Walsh*

Respectfully submitted,

*Philip J. Holston Jr.*  
\_\_\_\_\_  
Chief Engineer of the Water Supply Board of the City of Providence

The aforesaid declaration and statement of the Chief Engineer of the Water Supply Board was submitted to said board for approval on the 22 day of Oct., 1965 and said board, at a meeting duly held on said date, unanimously approved and endorsed said declaration and statement, all as appears in the records of the Water Supply Board.

Mr. Vincent Vespia  
City Clerk  
City Hall  
Providence, Rhode Island

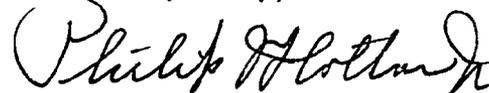

Dear Mr. Vespia:

Under date of June 15, 1965, Mayor Joseph A. Doorley, Jr. executed an agreement with Charles A. Maguire & Associates for engineering services in connection with the design and construction of the proposed Aqueduct and Tunnel from the Purification Works in Scituate to Budlong Road in Cranston. We have estimated the cost of this project to be \$10,500,000 and recently we received a 50% Federal grant in the amount of \$5,250,000 from the Economic Development Administration of the U. S. Department of Commerce.

In order to meet the requirements of this Federal agency, it is necessary that we supply them with a copy of the agreement. Unfortunately, the original was not in our files and we were unable to obtain this document from Maguire & Associates. Under the circumstances, we asked the Mayor to execute another copy of the agreement and we are forwarding this official copy for your records. If you happen to have a reproduction of the previous one, kindly see that it is destroyed.

We are forwarding the original copy of this agreement to the City Controller's Office and if you need further copies, they may be reproduced from the one on file in Mr. Wilkes' office.

Yours very truly,

Philip J. Holton, Jr.  
Chief Engineer

CHARLES A. MAGUIRE & ASSOCIATES  
ENGINEERS  
PROVIDENCE - BOSTON - HARTFORD

THIS AGREEMENT made and entered into this 15th day of June 1965 between the City of Providence, hereinafter called the "Owner", Party of the First Part, and Charles A. Maguire & Associates, Engineers, of Providence, Rhode Island, hereinafter called the "Engineer", Party of the Second Part.

WITNESSETH, that in consideration of the mutual covenants and agreements herein contained the parties hereto do mutually agree as follows:

ARTICLE 1. EMPLOYMENT OF ENGINEER: The Owner hereby employs the Engineer and the Engineer agrees to perform all professional services hereinafter set forth in connection with: (A) the preparation of land condemnation maps including all necessary field surveys for same; and (b) the design and general supervision of construction (including borings for construction purposes) of an aqueduct and tunnel from the Water Purification Works in Scituate to Budlong Road in Cranston, a distance of approximately 20,160 feet (as described in the April 27, 1965 report "Routing and Construction Costs for Proposed Aqueduct and Tunnel", Aqueduct Plan - Plan II) complete with connection to the clear well at the Purification Works, the required tunnel in West Warwick, connections to existing aqueduct, and all other necessary appurtenances.

ARTICLE 2. INFORMATION TO BE FURNISHED BY OWNER: The Owner shall furnish the Engineer such information and data as are available and pertinent to the work contemplated under this Agreement including any chemical soils analyses, steel testing and analyses, and concrete testing that may be required.

ARTICLE 3. CHARACTER AND EXTENT OF ENGINEERING SERVICES: The Engineer shall furnish in connection with: (A) the preparation of land condemnation maps including all necessary field surveys for same; and (B) the final design (including borings for construction purposes) and general supervision of construction of the project the following engineering services:

A. Preparation of Land Condemnation Maps Including All Necessary Field

Surveys for Same: The Engineer shall prepare the necessary land condemnation maps and perform all the necessary field survey work in connection with the landtaking for the proposed aqueduct and tunnel from the Water Purification Works in Scituate to Budlong Road in Cranston. The Engineer shall furnish the following services:

(1) Prepare the required land acquisition plans and descriptions:

The Engineer shall prepare all the required land acquisition plans and descriptions as may be necessary for the construction of the proposed aqueduct and tunnel from the Water Purification Works in Scituate to Budlong Road in Cranston. The drawings, including number of submissions, shall be in conformance with all the requirements of the Owner, local and State governments.

(2) Field survey work for land acquisition plans and descriptions:

The Engineer shall perform the required field survey work in connection with the landtaking for the proposed aqueduct and tunnel as follows:

(a) Check plat records and ownership of the various parcels of land involved in the land acquisition and obtain permits of entry for purposes of the field survey and stakeout of final aqueduct routing.

(b) Survey and stake out in the field the aqueduct routing. The field survey shall provide stationing, bench marks, chords, angles and property line locations. (Methods used acceptable for one in 15,000 closure.)

B. Final Design, Borings and General Supervision of Construction

(1) Final design (construction drawings and specifications):

The Engineer shall prepare for each of nine construction contracts the following:

- (a) Final designs, detailed construction drawings, specifications and contract forms, complete and ready for taking bids and make such minor revisions to modify and/or amplify the drawings and specifications as required by the Owner. Provide six (6) sets of the construction drawings (blueprints) and six (6) copies of the specifications for each construction contract for bidding purposes. The drawings and specifications furnished by the Engineer shall conform to all regulations of law, local and State authorities.
- (b) Furnish the Owner with one (1) complete set of the construction drawings for each construction contract which shall consist of reproduction of pencil drawings by the photo-offset-lithograph process with ink on linen. Furnish also one (1) set reproducible specifications for each construction contract.
- (c) Furnish the Owner a detailed "Estimate of the Cost of Construction" of the work designed for each construction contract; said estimate to be made from the completed final drawings and specifications, and shall be broken down into bid items.

(2) General supervision of construction: The Engineer shall for each construction contract:

(a) Provide consultation and advice during construction, evaluate bids received and assist in award of contract or contracts for contractors; make periodic visits to the site to keep informed as to actual conditions encountered and progress made.

(b) Render interpretations as necessary of the drawings and specifications; prepare such details as necessary to supplement the construction drawings and/or to meet unanticipated construction conditions.

(c) Check all shop and working drawings furnished by the Contractor.

(d) Make final inspection and submit a final completion report to the Owner.

(3) Preparation of nine construction contracts: The Engineer shall prepare nine separate construction contracts for the work - i.e. eight (8) separate construction contracts pertaining to the aqueduct construction of approximately equal size costwise, and one (1) construction contract for the tunnel construction under the West Warwick golf course.

(4) Borings for construction purposes

(a) Contract for actual taking of borings (rock and earth) by "others".

(b) Prepare suitable plans for purposes of field stakeout of borings including location and depth of borings.

- (c) Obtain rights of entry permission from the property owners and locate and stake out in the field the proposed borings.
- (d) Supervise the taking of all borings in the field by competent personnel, all supervised by a qualified soils engineer.
- (e) Analysis and evaluation (including laboratory soils testing) of the boring data by our Mr. Pierce, Chief Soils Engineer, and Mr. Fahlquist, Staff Geologist Consultant as long as their services are available, or by other similarly qualified personnel as approved by the Owner.

ARTICLE 4. COMPENSATION: The Owner shall pay and the Engineer shall receive as full compensation for the services to be rendered under this Agreement the following fees:

- A. Preparation of Condemnation Plans for Proposed Aqueduct:  
Preparation of the required land acquisition plans and description (Article 3A(1)) and the Field survey work for land acquisition plans and descriptions (Article 3A(2)): For providing the engineering services referred to in Article 3A(1) and (2) the lump sum amount of Forty-Three Thousand and no/100 Dollars (\$43,000.00).
- B. Final Design and General Supervision, and Borings for Construction:
  - (1) Final design (construction drawings and specifications) and general supervision of construction (Article 3B(1) and (2)):  
For providing the engineering services referred to in Article 3B(1) and (2) the lump sum amount of Three Hundred and Eighty-Five Thousand and no/100 Dollars (\$385,000.00).

Provided that if the project is not advanced into the construction stage, the Engineer shall be paid the lump sum amount of Three Hundred and Forty-Six Thousand and no/100 Dollars (\$346,000.00).

(2) Preparation of nine construction contracts (Article 3B(3)):

For the extra work involved in the preparation of nine construction contracts for bidding purposes referred to in Article 3B(3) the lump sum amount of Fifteen Thousand and no/100 Dollars (\$15,000.00).

(3) Borings for construction purposes (Article 3B(4)):

(a) For providing the borings referred to in Article 3B(4)(a), Borings, at a directly reimbursable cost by "Others" not to exceed Thirty Thousand and no/100 Dollars (\$30,000.00).

(b) For providing the engineering services referred to in Article 3B(4)(b), (c), (d) and (e) the lump sum amount of Fifteen Thousand and no/100 Dollars (\$15,000.00).

ARTICLE 5. PAYMENTS: Payments to the Engineer on account of the fees under Article 4 shall be made as follows:

A. Preparation of Condemnation Plans for Proposed Aqueduct

- (1) Preparation of the required land acquisition plans and descriptions and the field survey work for land acquisition plans and descriptions (Article 4A): Forty-Three Thousand and no/100 Dollars (\$43,000.00) upon completion and submission and approval by the Owner of the land acquisition plans and descriptions.

B. Final Design and General Supervision, and Borings for Construction

- (1) Final design (construction drawings and specifications) (nine (9) contracts) (Article 4B(1) and (2)): Three Hundred and Sixty-one Thousand and no/100 Dollars (\$361,000.00) upon completion of "Final Design (Construction Drawings and Specifications)".

Partial payment shall be made against the above periodically, and shall be based upon the estimated value of services rendered to date of submission of invoice by the Engineer and as approved by the Owner.

- (2) General supervision of construction (Article 4B(1)): For general supervision services Thirty-Nine Thousand and no/100 Dollars (\$39,000.00) in periodical installments in proportion to the percent completion of actual construction.

- (3) Borings for construction purposes (Article 4B(3)):

- (a) Thirty Thousand and no/100 Dollars (\$30,000.00) (not to exceed - based on actual costs) upon submission and approval by the Engineer to Owner of the drilling contractor's invoices for work performed under Article 3B(4)(a). Invoices may be submitted from time to time as work is completed.
- (b) Fifteen Thousand and no/100 Dollars (\$15,000.00) upon completion of boring layout, supervision and analysis work performed under Article 3B(4)(b), (c), (d) and (e).

ARTICLE 6. REVISION OF WORK: If, after the basic designs and drawings have been approved, and the Engineer has been authorized to proceed with the preparation of construction drawings, the Owner shall set aside the whole or any part of the Engineer's studies, drawings or specifications, or shall make such changes in the requirements as shall necessitate redrawing, the Owner shall pay the Engineer for the cost of such revisions a sum equivalent to the amounts paid by the Engineer to engineers, designers, draftsmen, clerical and other personnel for services performed in connection therewith, plus a surcharge of 115 percent thereon to cover insurance, taxes, central office expense, overhead and profit. The cost of blueprints, specifications, long distance telephone, travel and other expense in connection therewith to be reimbursable to the Engineer at cost without surcharge.

ARTICLE 7. ADDITIONAL WORK: If, during the performance of this Agreement, other or additional engineering services are required in connection with the contract, the Owner may order the Engineer to perform such other or additional services. Payment to the Engineer for same shall be as provided in Article 6 above.

ARTICLE 8. TIME FOR COMPLETION: The target date established for the furnishing of contract plans and specifications complete and ready for taking bids is nine (9) months after date of execution of this Agreement, except that the condemnation drawings will be completed within three (3) months.

ARTICLE 9. ABANDONMENT OF PROJECT: If the Owner shall, at any time, during the performance of this Agreement deem it expedient, or it shall become necessary for the Owner to abandon or involuntarily defer the work under this Agreement or any part thereof before completion of the services to be rendered hereunder, the Engineer shall be entitled to just and equitable compensation for any uncompensated work performed prior to such time.

ARTICLE 10. LITIGATION AND ADDITIONAL INVESTIGATIONS: Nothing herein contained shall obligate the Engineer to prepare for or to appear in litigation on behalf of the Owner or to make investigations or reports on matters not included herein except in consideration of additional compensation mutually agreed upon.

ARTICLE 11. ARBITRATION: All disputes arising under this Agreement shall be decided upon by a Board of Arbitrators, one to be named by the Owner, one by the Engineer, and one by the two so-named, whose decision shall be binding and conclusive upon the parties hereto. The expense of such arbitration shall be borne equally by the two parties to this Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement in triplicate as of the day and year first above written.
