PERMANENT BLACK

## WRITING INK,

*Tested for nearly half a century.*

REGISTRY OF DEEDS OFFICE, Boston, January 10, 1859.

MESSESS. MAYNARD & NOYES: Gentlemen,—I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records and all mercantile purposes, where it is important that the writing should remain legible, and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

The above popular Ink, together with

# Chilson's Patent Cone Furnaces,

—AND—

## DOUBLE OVEN COOKING RANGES.

**CHILSON'S CONE FURNACE.**

Patented in America, England and France.

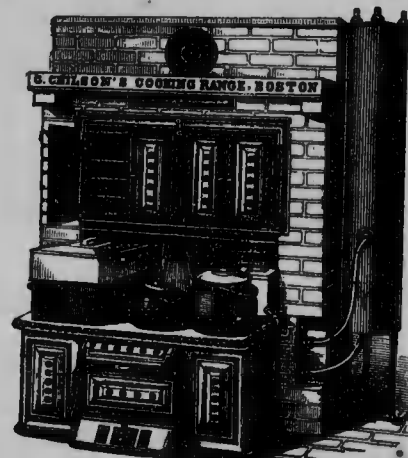

The extensive use of this superior Furnace in the United States has acquired for it a reputation too well and favorably known to need more at this time than to call the special attention of those in want of the best possible means of warming dwellings, public buildings, &c., with pure, fresh, healthful heat, (free from that dry, red hot iron heat, and coal gas, so common to hot air furnaces,) to an examination of this superior invention, which represents a cluster of Cones, or tapering Radiators over a broad flaring, shallow fire-pot.—These cones being large at the base, and small at the top, secures the great and important object of retaining and holding the smoke and gases back, in contact with the burning fuel—thus thoroughly consuming the gases, while their heat is compressed up into the Cones, and made to impinge against and radiate from the tapering surfaces,—thereby securing twice the heat from a given amount of coal, than can be obtained from any other plan known to man. This furnace is very simple in its construction, and easily managed, and much less liable to need repairs than any other plan of furnace in use.

Also five sizes of PORTABLE FURNACES on the same principle, that are giving the most perfect satisfaction. The Cone Furnace received a *Gold Medal* at a recent fair in Boston, and the only gold medal ever awarded to a furnace in Massachusetts.

**CHILSON'S PATENT**

**ELEVATED DOUBLE-OVEN COOKING RANGE.**

Housekeepers and others interested in the use of Ranges or Stoves, whether wishing to purchase or not, are invited to examine the great improvements secured by five patented claims in this truly superior Range, now in so general use.

The subscriber confidently asserts these improvements to be far in advance of any other plan of Range or Stove in the United States, and believes an examination of them, together with the many thousand testimonials received from those in use, will fully substantiate this assertion. Sizes adapted for Hotels, Dwellings, Restaurants, or any public or private institution, fitted when desired with hot water backs for bathing and other washing purposes; hot air fixtures for heating additional rooms, and hot closets or plate warmers.

## PARLOR STOVES,

**CHILSON'S NEW PARLOR STOVE** has great improvements over any other Stove in the market, for its great economy in fuel, keeping fire day and night, and warming the cold air near the floor for a great distance around the stove. An oven and boiler attached when desired. Its arrangements for ventilating the room are complete. Call and see this Stove.

**CHILSON'S NEW FLAT IRON HEATER**,—Just Patented. Arranged so as to set into one of the boiling holes of a Range or Stove. The nicest invention ever devised for the purpose of effecting a great saving of fuel and labor.

**CHILSON'S NEW GRIDIRON**,—Just patented. This is unquestionably the most perfect invention ever seen for broiling steak, etc., nice and quick, without one particle of smoke or odor from it in the room.

**CHILSON'S NEW VENTILATOR AND DAMPER COMBINED**,—Just Patented. May be attached to the Smoke Pipe of any Furnace, Stove, etc., effecting a saving of at least 50 percent. in fuel, and keeping one continuous fire through the season. Please notice this invention.

Circulars giving full descriptions of the above sent to any address.

Registers, Ventilators, Mantels, Frame Grates, Stoves, &c., with every variety of Heating, Cooking and Ventilating Apparatus.

Personal attention given to their erection when desired. The above may be obtained at wholesale or retail, at my store 99 and 101 Blackstone Street, Boston, or at my Foundry in Mansfield, Mass.

## PREFACE.

The third volume of the enlarged edition of the Providence Directory, issued by the present publishers, and twenty-second serial number, is now offered to the citizens and public, with the assurance that extra efforts have been made to insure a thorough and correct work.

The general Directory contains the same number of pages as last year, but about 100 more names, which was not expected, but shows that the city has been thoroughly canvassed.

Endeavors have been made to obtain and insert the names of as many as possible of those patriotic citizens, who had left their homes previous to canvassing, to sustain the Government of their country and restore it to its original state of quiet and happiness.

It was intended to have given the organized Militia of the City, but they being suddenly called to the seat of war, prevented giving a correct list, and we have therefore omitted them.

Although during the past year there has been a general depression of business, it is gratifying to know that in most branches there is a gradual improvement, and it is hoped that before another issue, all branches will have attained their usual prosperity.

An Index to the Advertising Department is given on the opposite page; and the names of Advertisers are given in CAPITALS in the business Directory under their vocations, which places them much more prominently before the public.

The Publishers again return their thanks to all who have assisted in preparing the work, and also, especially, to those who as subscribers or advertisers have given it their patronage.

ADAMS, SAMPSON & CO.,  
No. 43 Canal Street.

## BOUNDARIES OF THE SEVERAL WARDS.

## THE FIRST WARD

Includes all that portion of the city north of a line commencing at the North Providence line, on the Woonasquatucket river, and running thence through said river to the Moshassuck river; thence through the Moshassuck river to Church street; thence through Church street to Benefit street; thence in a straight line to the West end of Lloyd street, at its junction with Congdon street; thence through Lloyd street to Hope street; thence in a straight line the continuation of Lloyd street to the Seekonk river.

## THE SECOND WARD

Includes all that portion of the city on the east side of the river, south of the above line, to a line commencing at the foot of Power, on South Water street, and running thence through Power to Brown street; thence through Brown to Charles Field street; thence through Charles Field to Hope street; thence through Hope to Benevolent street; thence through Benevolent to Governor street; thence through Governor to Pitman street; and thence through Pitman street to Central bridge, on Seekonk river.

## THE THIRD WARD

Includes all that portion of the city on the east side of the river, south of the above named line.

## THE FOURTH WARD

Includes that portion of the city bounded by a line commencing at Weybosset bridge, and running through Westminster, Weybosset, Broad and High streets, to the junction of High and Westminster streets; thence through Jackson to Fountain street; thence through Fountain to Dean street; thence through Dean and Acorn streets to the Woonasquatucket river; thence down said river and through the cove to the harbor at Weybosset bridge.

## THE FIFTH WARD

Contains all that portion of the city on the west side of the river, south and east of a line commencing at Weybosset bridge and running through Westminster, Weybosset and Broad streets to Claverick street; thence through Claverick to Pine street; thence through Pine to Plane street; thence through Plane street to the line of the town of Cranston.

## THE SIXTH WARD

Includes all that portion of the city south of High street, and west of the line above described.

## THE SEVENTH WARD

Includes all that portion of the city north of High street and west of a line commencing at the junction of High and Jackson streets, and running thence through Jackson to Fountain street; thence through Fountain to Dean street; thence through Dean and Acorn streets to the Woonasquatucket river.

**BIRTHS, MARRIAGES AND DEATHS.**

IN PROVIDENCE, DURING THE YEAR 1861.

FROM THE CITY REGISTRAR'S ANNUAL REPORT.—OFFICE 27 SOUTH MAIN.

**BIRTHS.**

Whole number, 1725, or 77 more than in 1860. Sex—Males, 936; Females, 789. Parentage, according to nativity of the father,—American, 740; Irish, 767; Other Foreign, 218. Color,—White, 1674; Colored, 51. There were 29 cases of twin births, and one case of triplets.

**MARRIAGES.**

Whole number 547, or 73 less than in 1860. Both parties were natives of the United States in 304 marriages; both natives of Ireland, in 122 marriages. Nearly 22 per cent. of the females, and less than 3 per cent. of the males were under 20 years of age. The average age of those married, was:—males, 28.2 years; females, 22.3 years. Thirty persons of American, and 209 persons of foreign birth signed the marriage certificate with a mark.

**DEATHS.**

The following table shows the statistics of the deaths in Providence during the year 1861.

## FIRE DEPARTMENT.

The Fire Alarm Telegraph has been in operation in this city about one year, and has proved far superior to the old method of fire alarm. The bells used for alarming the fire department are upon the following buildings, viz: St Johns church, Benevolent st. Congregational church, (Dr. Hall's), St. Stephen's church, Roger William's church, G. T. Swart's tower, Central Baptist church, and No. 9 Engine house. The signal boxes, where alarms can be communicated, may be found in all the fire engine houses, (except 12), in the store of A. F. Fuller, 66 Wickenden; the Police office; the Central watch station; the store of B. W. Bowen, 203 N. Main; G. T. Swarts' house, 54 Pine; the new Market Building, cor. Broad, and High; and the store of Williams & Cole, 237 High street.

SOLD BY  
**R. S. BURROUGH & CO.,**

No. 40 Canal Street, Providence, R. I.

**J. M. EARLE'S**  
**METALLIZED PARAFFINE OIL,**

Adapted to general lubrication, and superior to the best Sperm Oil.

This Oil is UNIFORM in quality, FREE FROM GLUTINIOUS PROPERTIES and all tendency to EVAPORATION and OXIDATION, and will not injure the most delicate machinery.

It being composed of METALLIZED ANIMAL OIL, with pure Paraffine Oil (especially prepared for this purpose,) it has a strong chemical affinity for metallic surfaces, by which the oil is retained on the parts or bearings to which it is applied.

It possesses great power of RESISTANCE TO FRICTION, imparting a permanent and high degree of cleanliness; will remain limpid at a low temperature, and is especially adapted to SPINDLES AND TOP ROLLS.

As this Oil prevents journals from heating by reducing the friction, a great saving is secured, both in power and expense, as proved by numerous actual tests.

**PARTICULAR NOTICE.**—Before using the Metallized Paraffine Oil, the feeders and cans should be thoroughly cleansed.

Orders received by BENONI HARRIS, GENERAL AGENT, Providence, who has ample and prompt facilities for executing the same.

**WOOLEN MANUFACTURERS'**

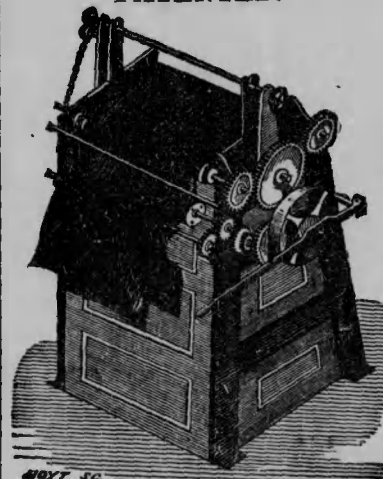

ATTENTION IS RESPECTFULLY INVITED TO THE

**TENTERING AND DRYING MACHINE!**

Invented and Manufactured solely by

**JOSEPH S. WINSOR.**

PATENTED.

This Machine has been proved and pronounced by the following  
Companies to be the best and most economical machine for  
drying and tentering now in use.

EVANS & SEAORAVE, Waterford.

BRADFORD & TAFT, Waterford.

LAFAYETTE REYNOLDS, Mohican Mills.

BOWEN & BATTIE, Cranston.

ELM ST. WOOLEN MILL, B. & J. Aborn, Providence, R. I.

S. & H. Sayles, Daysville, Conn.

The space required for this machine and its operation does not  
exceed eleven feet square, one hand being sufficient to operate it,  
and it will dry 50 to 60 pieces of medium cloth per day, at an  
expense for fuel of less than 75 cents.

The machine may be seen at the factories of any of the above  
Companies, or at the shop of the subscriber.

Also, Patented for an Improvement in MACHINES for  
**MAKING WEAVER'S HARNESS.**

This Harness, styled a Double-Knotted Harness as distinguished  
from the "Loop-Harness," the undersigned has for several years  
manufactured and furnished to order, and he has the satisfaction  
of knowing that but few of the many manufacturers who have  
given it a trial, have failed to adopt it in substitution for the  
Loop-Harness. It is, the undersigned unhesitatingly affirms, in  
all respects superior to the Loop-Harness, and in point of dura-  
bility surpasses it in the ratio of at least two to one. He can  
designate Harnesses of his manufacture which have been in con-  
stant use for four years past, and which ALTHOUGH NEVER RE-  
VARNISHED, are still in good working order.

Manufacturers and all interested in Harness are invited  
to call, and witness for themselves the working of this truly val-  
uable Machine.

JOSEPH S. WINSOR.

to the above design, a new method  
or plan of laying out Rural Ceme-  
teries, combining the beauty and  
variety of the Natural, with the  
compactness and economy of the  
GEOMETRIC STYLE of Landscape Gar-  
dening, the result of sixteen years'  
experience.

N. B. S. is prepared to furnish  
Designs and Working Plans, to lay  
out public and private grounds,  
make Selections of Sites, &c.

Amateurs and others residing in  
remote parts of the country, who  
prefer doing the ground work them-  
selves, can have plans sent to them,  
per mail, by forwarding a sketch  
and description of the ground.—  
When the surface is broken and  
hilly, an accurate topographical  
survey is indispensable.

## NEW ENGLAND REAL ESTATE OFFICE,

W. GOWARD, - - PROPRIETOR.

All persons wishing to purchase Farms, Country Residences, or Real Estate of any description, will find, by applying at our Office, the most complete and extensive list of Real Estate to be found in New England.

Having personally examined most of them, only such description will be given as will be found correct upon examination.

Those who cannot make it convenient to call at our office, can be furnished with a copy of the "Real Estate Register," sent to their address, post paid, for two three-cent postage stamps, which contains a larger amount of Real Estate for sale than all the newspapers in New England combined.

**PARTICULAR NOTICE.**

To persons having Farms, Country Residences, Lands, Factories, or Real Estate of any kind for sale, that, by our long experience in the REAL ESTATE BUSINESS, and other superior advantages, we are enabled to offer greater facilities for the sale of such property than any other firm in New England. Those having property to sell will find it for their interest to give us a call.

TERMS FOR ADVERTISING IN THE REAL ESTATE REGISTER.—One square (12 lines) at the rate of \$2 per month,—larger advertisements same rate.

Commission for sale of Real Estate worth \$2,000 and upwards, one per cent. on the amount of sale estates valued at \$2,000 or less, \$20.

In case property is not sold, no charge will be made, except for advertising.

Advertisements inserted in any of the Boston papers at the publishers' lowest rates.

All business left in our charge receives our personal attention, and will be executed with fidelity and dispatch.

91 WASHINGTON STREET, BOSTON.

**THE BOSTON MUSEUM.**

Was erected in 1845, and cost nearly \$250,000. It is the largest, most valuable, and best arranged in the United States. It comprises no less than

**SEVEN DIFFERENT MUSEUMS,**

One half of the celebrated Peale's Philadelphia Museum, swelling the collection to upwards of Half a Million of Articles, the greatest amount of objects of interest to be found together at any one place in America; and an entirely

**NEW HALL OF WAX STATUARY,**

one hundred feet in length, completely filled with WAX FIGURES.

In addition to the attractions, and without extra charge, visitors are admitted to the gorgeous Exhibition Hall, where they can witness the magnificent THEATRICAL ENTERTAINMENTS, given every evening, and on Wednesday and Saturday afternoons.

**ADMISSION 25 CENTS.**

TREMONT STREET (between Court and School St.) BOSTON.

## CORNS, BUNIONS, CALOSITIES, Frosted and Blistered Feet, Chilblains, etc., etc.

SUCCESSFULLY CURED BY USING

## DR. J. BRIGGS' CORN & BUNION ALLEVIATOR.

PRICE 25 CENTS.

Office 212 Broadway, New York.

Sold by Druggists generally, sent by mail on receipt of thirty cents in stamps.

Entered according to Act of Congress, in the year 1862, by Josiah Briggs, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

Years of experimenting and study have resulted in the production of this valuable preparation, which effects a cure without pain or inconvenience—a beautiful and desirable application, as well as the safest, cheapest and most effectual remedy in existence for the safe and perfect cure of all hard indurated substances which afflict the feet of mankind.

The process of cure is not to burn or eat the excrescence, but the Alleviator acts upon it in such a manner as to cause it to separate and entirely disappear from the foot, leaving it sound and free from any disagreeable sensation. The boot or shoe can be worn at all times after the application with perfect ease.

DR. BRIGGS feels justified in warranting his Alleviator to effect cures both satisfactory and surprising. A cure for the maladies of the feet has long been sought for, and has never been satisfactorily accomplished until the production of his Preparation. Although the number of different "never-failing" remedies are many, still they have been applied without satisfactory results, therefore the public will have to be convinced of the merits of this preparation before it can obtain confidence. The surest way is to make a trial, and if successful, the cure will be worth many times as much as was previously expended in worthless compounds, all of which are warranted to be "unequalled," and "not to injure the most delicate foot;" but experience has taught many afflicted persons that some of these "curative" preparations possess more of the killing than of the curing qualities, as they have been made lame in some cases for weeks, and others have actually lost their lives by using those "vegetable compounds," as they are called—made from potash and acids. In view of these facts, it is a wonder that persons who have suffered from such imposition can be induced to make another trial; but as their sufferings are so severe, and permanent relief so important, like drowning men they catch at straws, and when they are satisfied that the article prepared by Dr. Briggs is truly reliable, the excitement to obtain a supply could only be equalled by a ship on fire filled with human beings.

DR. BRIGGS' ALLEVIATOR is destined to secure public confidence by its own intrinsic merits. This preparation is simple and pleasant in its application—satisfactory and surprising in its results. The action is harmless—relief immediate and complete after the application.

There is, in general, no member of the body more abused than the feet, (the chests of stay-wearing ladies scarcely excepted,) and the certain penalty is corns, callosities and deformities, an unspeakable amount of pain, and in the course of time a partial or complete destruction of the powers and capacities of one of the most essential of the bodily organs. The feet, with proper care and attention, would be as free from pain and disease as the hands, their structure and adaptation to the wants and comforts of mankind being naturally perfect. Thirty-six bones and thirty-six joints have been given by the Creator to form one of the most useful of extremities, and yet man cramps, cabins and confines the beautiful arrangement of one hundred and forty-four bones and joints, together with muscles, elastic cartilage, lubricating oil, fluid, veins, and arteries, into a pair of boots or shoes, which, instead of forming a protection, produce the most painful and aggravating torments, the memory of which will be fresh in the mind of the sufferer years after, even if they have been relieved by one who has devoted years of study to one of the most important yet much neglected branches of the curative art. Long may such live to enjoy the blessings conferred by the use of Dr. Briggs' Corn and Bunion Alleviator, in the removal of those excrescences which entail more pain and suffering than afflictions in any other part of the body. Yet diseases of the feet are considered by most persons of such trifling importance, that they are hardly noticed at all, nor are any precautions taken, until the individual finds his feet blistered and inflamed by the pressure and friction of the boots, when years of suffering might easily be avoided. The chafing of the badly-fitting boot, is, however, often continued until the result is corns, bunions, callosities, etc., etc.

Speaking of Corns—It is the belief of some philosophers that corns came into the world with tight boots, and that they were totally unknown to the ancients, as they wore sandals and other yielding coverings for the feet.—It is doubtful whether the whole Roman Empire could have produced a single corn or bunion, while it is equally certain that there is no mention of a chiropodist in Scripture. We read of no chiropodist in the Iliad, the oldest of all poems. All this proves that corns, like newspapers and vaccinations, are modern inventions. The first leather boot probably led to the first corn, the first bunion, the first swearing at the feet.

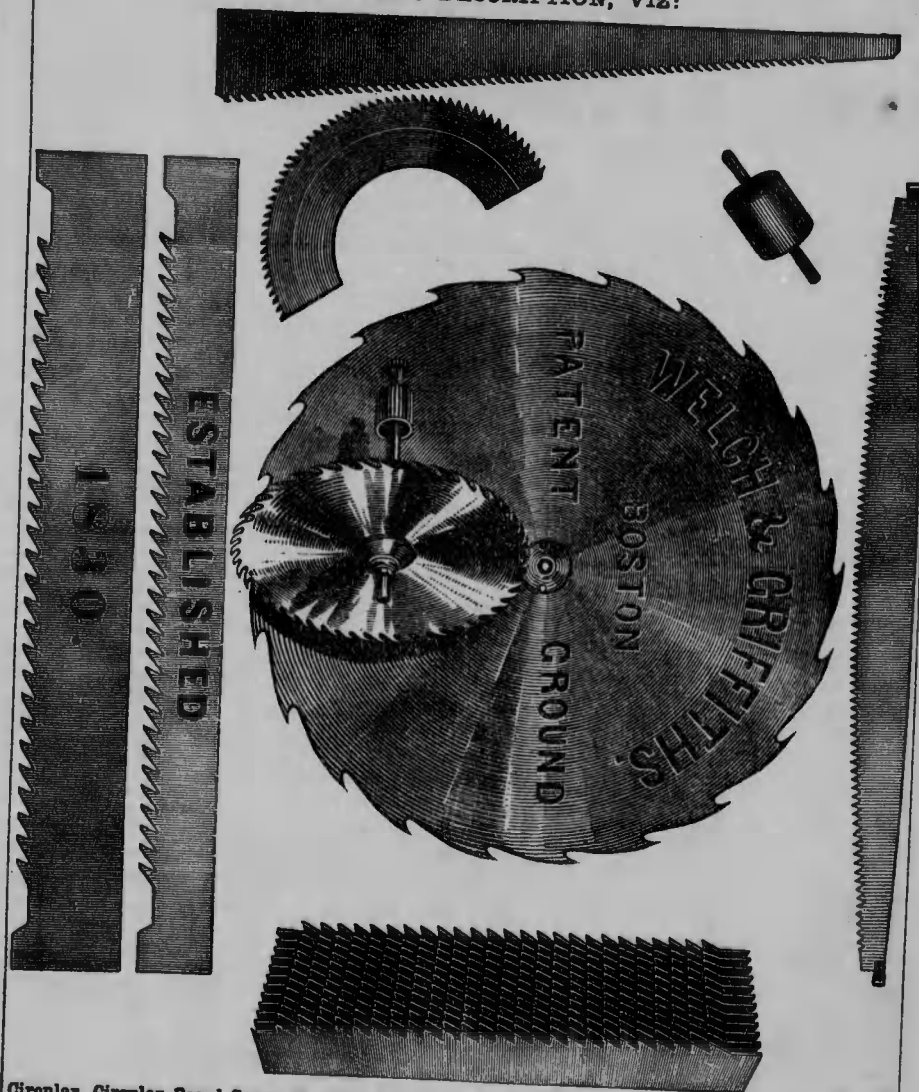

But, notwithstanding corns are of a late production, they soon became universal. They are now found in all parts of the old and the new world. They are to be met with in the palace of the king, and in the cabin of the ploughman. They are found in London, Paris and New York. They flourish on the Thames, grow luxuriantly on the Hudson, and yield magnificently on the Mississippi.

Who has not suffered from corns, bunions, frosted and blistered feet, chilblains, etc.? Who has not been willing to make almost any sacrifice and incur any expense to effect their cure? but as years rolled on and no relief came, the sufferer has concluded that they were inevitable evils, and has suffered, and still continues to suffer martyrdom from these apparently simple causes. Everybody should be glad to know that all the torments to which the feet of man are subject will soon be numbered among the things of the past, owing to the victorious success of Briggs' Alleviator, the conqueror and demolisher of the great foes to mankind's toes.

**DR. J. BRIGGS,**  
Proprietor and Surgeon Chiropodist.

**NOAH DAVIS & COMPANY,**

Manufacturers of and dealers in

**Combination of Fine Old Mocha and Government Java Coffees,**

NOAH DAVIS.

**No. 63 Charlestown St., Boston.**

GEO. F. GIFFORD.

"We are free to say that Noah Davis & Co.'s Combination of Mocha and Java Coffees surpasses in richness and  
delicacy of flavor any we have ever before used; and that, in addition to its superior quality, we find it to be from  
Thirty to Forty per cent. cheaper, from the fact that it requires but two-thirds as much in weight to produce a given  
quantity.""We feel assured that with our conviction of its pre-eminence in quality, the encomiums of our patrons, and the  
testimony of our employes, we are fully warranted in recommending it to proprietors of Public Houses and all  
others, not doubting their unqualified approbation after a fair trial."

Signed by { WM. H. SPOONER, U. S. Hotel,

I. H. SILSBY, Winthrop House,

SELDON CROCKETT, Bromfield House, } And many  
others."I have become acquainted with the apparatus for roasting Coffee, invented by Mr. Reinhold Landstrom, and  
have tested the Coffee prepared by this device in ordinary use at Noah Davis & Co.'s Coffee Mill, in this city. The  
principle of slow conduction of heat through soapstone, with the prevention of the free escape of vapors, permits the  
development of the aromatic oil in the coffee-kernel, undergoing the change slowly in the most perfect manner,  
while the oil remains engaged in the tissues of the kernel. Coffee roasted in this apparatus retains a larger amount  
of flavor and taste than is usually found in it, and the roasted coffee becomes therefore more economical for con-  
sumption."

Respectfully,

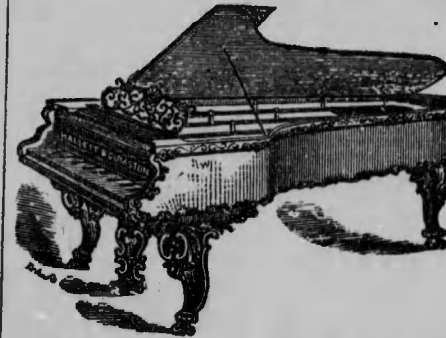

A. A. HAYES, M. D., State Assayer."
