PRESENTATION OF RESOLUTIONS

COUNCIL PRESIDENT APONTE, COUNCILMEN HASSETT, YURDIN AND PRINCIPE

Resolution Requesting the Traffic Engineer to Study Traffic Patterns in and around Downtown in order to reduce congestion and improve safety.

WHEREAS, Over the course of the last year and a half, many major roads and intersections in and around downtown Providence have been redesigned; and

WHEREAS, As part of that redesign, some streets that were previously one-way were made two-way, including Exchange Terrace, Empire Street, and part of Dorrance Street; and

WHEREAS, Many residents of and visitors to Providence have brought complaints to the City Council office about how the new traffic patterns are confusing, complicated, and potentially dangerous; and

WHEREAS, Particular concern has been raised about the new traffic patterns at the intersection of Exchange Terrace, Dorrance Street, and Francis Street, the intersection of Fountain Street and Dorrance Street, the intersection of Fountain Street and Empire Street; and

WHEREAS, Pedestrians have focused on the lack of clarity about when they are meant to cross at some of these intersections, pointing to many situations in which a walk signal is given at the same time as a green light for contravening traffic; and

WHEREAS, Drivers have raised concerns about confusion at downtown intersections causing increased congestion, especially during busy rush hour traffic; and

WHEREAS, Moreover, in some instances, such as traffic turning left from Fountain Street onto Francis Street, drivers are positioned in such a way that they cannot see that they are unable to clear an intersection until they have already entered it, causing them to inadvertently "block the box," which further increases congestion and leaves drivers in an unsafe position on the roadway; and

WHEREAS, Traffic congestion and safety concerns in downtown directly affect quality of life and economic development in the whole city, and present a poor image of our city to those visiting downtown; and

WHEREAS, The Providence City Council has a moral obligation to ensure the safety of both drivers and pedestrians on the streets of Providence.

NOW, THEREFORE, BE IT RESOLVED, That the City Council of the City of Providence does hereby respectfully request that the Traffic Engineer conduct a study reviewing traffic patterns and intersections in an around downtown and shall make recommendations for reducing congestion, eliminating confusion, and improving safety for both drivers and pedestrians.

BE IT FURTHER RESOLVED, That, within ninety (90) days, the aforementioned study shall be submitted to the City Council.

BE IT FURTHER RESOLVED, That, upon passage, copies of this resolution shall be sent to the Director of Public Works, the Director of Planning, and the Traffic Engineer.

Resolution Concerning the fiscal impact of the Expansion of Achievement First Mayoral Academy and the opening of two other Charter Schools in Providence.

WHEREAS, The Achievement First Mayoral Academy applied to the Rhode Island Council on Elementary and Secondary Education (“CESC”) to expand its enrollment from 912 to 3,112, with likely more than 80% of that enrollment coming from Providence residents; and

WHEREAS, The Achievement First Board approved the application subject to an assessment by the Mayor of Providence that the proposal was in the best interest of all of the City’s students, stating:

if authorization to open the new school be granted, AFRI will only open such school with a subsequent affirmative vote by the Board of Directors of AFRI and provided further that such vote must include an affirmative vote by the Mayor of Providence based on his assessment that the opening of this additional school will be aligned with the best interests of the Providence Public School District; and

WHEREAS, CESC began holding hearings on the application on October 17, with the last public hearing scheduled for November 9; and

WHEREAS, Rhode Island General Laws §16-77.3-3(f) (as amended by the 2016-17 budget) provides that:

In considering a proposed charter or an amendment to a charter for expansion, the council on elementary and secondary education shall place substantial weight on the fiscal impact on the city or town, programmatic impact on the sending school district, and the educational impact on the students in the district to ensure that the proposal is economically prudent for the city or town, and academically prudent for the proposed sending school district and for all students in the sending district; and

WHEREAS, The CESC has not presented a fiscal impact study of the Achievement First application in connection with the ongoing hearings; and

WHEREAS, The Internal Auditor estimated the net fiscal impact of the original Achievement First application in 2011 to exceed \$10,000 per student, even after accounting for savings from staff reductions; and

WHEREAS, A proportionate fiscal impact from the loss of 2,200 students would exceed \$20 million, which would be devastating for the remaining students in the Providence Public Schools; and

WHEREAS, The Internal Auditor has begun an economic impact analysis of the proposed expansion, which he expects to complete within two (2) weeks; and

WHEREAS, CESC is also being asked to consider approve two new Charter School applications, from the Charette School with a proposed enrollment of 225 Providence students and the Wangari Maathai Community School with a proposed enrollment of 304 Providence students.

NOW, THEREFORE, BE IT RESOLVED, That the Providence City Council hereby requests that CESC extend its hearing schedule to continue a minimum of thirty (30) days after the publication of CESC’s analysis of the fiscal impact on Providence of the proposed expansion of Achievement First and the new school applications of the Charette and Wangari Maathai Community Schools, and that CESC schedule a minimum of three (3) hearings at least one week apart during that extended period for review and comment by the Providence Public Schools.
