Re: Environmental Sustainability Task Force

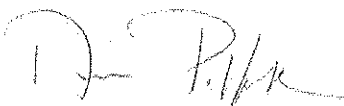

Dear Esteemed Members of the Council:

I regret to inform you that I must resign my position on the Environmental Sustainability Task Force, effective May 1<sup>st</sup>. There is much excitement around environmental sustainability issues within Providence, and I believe I can best support advancing a strong sustainability agenda by allowing a new, energized member to join the Task Force.

I have greatly enjoyed my time with the Task Force. It serves a critical coordinating and accountability role as the City and Council work to advance successful environmental initiatives. I look forward to continuing to attend the Task Force meetings and work with Task Force members in my capacity as Chief Innovation Officer for the City of Providence.

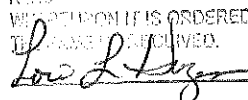

Thank you for your support.

Sincerely,

Nicole Pollock
