Re: Environmental Sustainability Task Force

Dear Esteemed Members of the Council:

I regret to inform you that I must resign my position on the Environmental Sustainability Task Force, effective this month due to time constraints caused by other professional and community obligations.

I have greatly enjoyed my time with the group and feel it serves an important role advising on issues of sustainability facing Providence. I look forward to continuing to serve the City in my other capacities.

Thank you for your support.

Sincerely,

A handwritten signature in black ink, appearing to read "Christine", written over a horizontal line.
