

CITY OF PROVIDENCE, RHODE ISLAND

ENVIRONMENTAL SUSTAINABILITY TASK FORCE

January 26, 2018

Dear Mayor Elorza, Members of the Providence City Council, and Members of the Environmental Sustainability Task Force,

Thank you for the opportunity to serve as the Chair of the Environmental Sustainability Task Force for over 5 years! It has been a tremendous privilege to assist the City in defining and moving towards its sustainability goals during this time.

I am writing today to step down as Chair of the Task Force. While once a Providence resident, I no longer reside in the city, and believe the Task Force would benefit from having a resident as Chair. Additionally, it is always good to have a change of leadership from time to time.

I look forward to welcoming a new Chair in the near future. I plan to continue on as a member of the Task Force, as the elected representative of the Environment Council of Rhode Island (ECRI).

Thank you again!

Sincerely,

A handwritten signature in cursive script that reads "Amelia Rose".
