1964 REPORT PERTAINING TO GRAVES RELOCATION PROJECT FOR  
CONSTRUCTION OF INTERSTATE ROUTE 95

During the year the disinterment and reinterment of approximately 4,400 graves were completed. The disinterments were from portions of sections 19, 23, 24, 27 and 28 in the northwest area of the cemetery and the reinterments were completed in section 37 in the north-central area. The disinterments from the northwest area became necessary when the same cemetery property containing approximately 563,000 square feet was condemned by the State of Rhode Island for highway purposes and the construction of Interstate Route 95.

The reinterments were made in two (2) separate lots purchased by the State of Rhode Island from the North Burial Ground. The reinterment of 1,054 graves was made individually, in one lot. The remaining approximate 3,300 reinterments were made in the second lot by a mass procedure of at least 10 removed remains per box.

The Graves Relocation Project also required the removal of 1,054 numbered markers, which were moved with each grave, to the new lot designated for the individual reinterments. 115 memorial stones were also moved and reset on the reinterment lots.

The Graves Relocation Project began March 11, 1964 and was completed May 23 under the supervision of State and Federal Engineers and by instruction and supervision of the Superintendent of the North Burial Ground.

Following you will find a statement of Receipts and Expenditures.
